# Goldfish and Guppies

# **Investigation 1**

## **Goldfish**

### **Question 1**

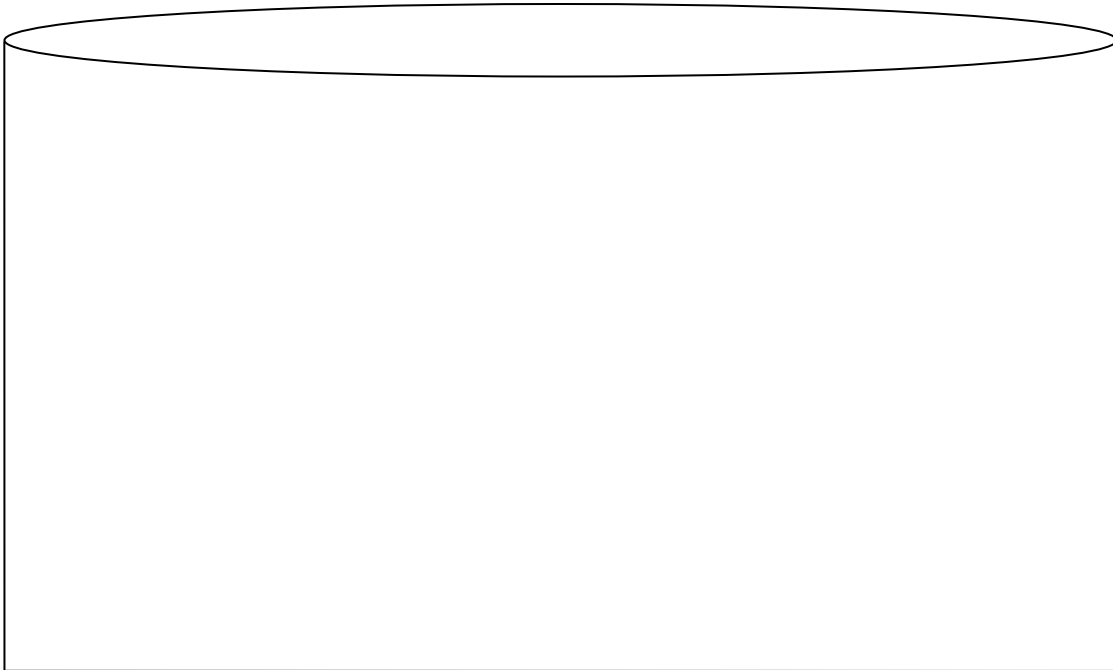

**Draw and label the parts of a goldfish.**

**Investigation 1**

# **Caring for Goldfish**

**Question 2**

**Where will your goldfish eat his food?  
Is your fish a top, middle, or bottom feeder? Put an  
X on where you think your fish will eat.**

Investigation 1

# Caring for Goldfish

## Question 3

What does a goldfish need to live? Write and draw three different things.

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

**Investigation 1**

**Goldfish Behavior**

**Question 4**

**What do you think the fish will do when you add a tunnel?**

**What did the goldfish do when the tunnel was added?**

# **Guppies and Goldfish**

**I'm a guppy, and I like to swim.  
Compared to goldfish I seem slim.**

**Our color isn't quite the same.  
I guess that's why we have different names.**

**A guppy sometimes has color on its tail,  
Especially when it's a fancy-tailed male.**

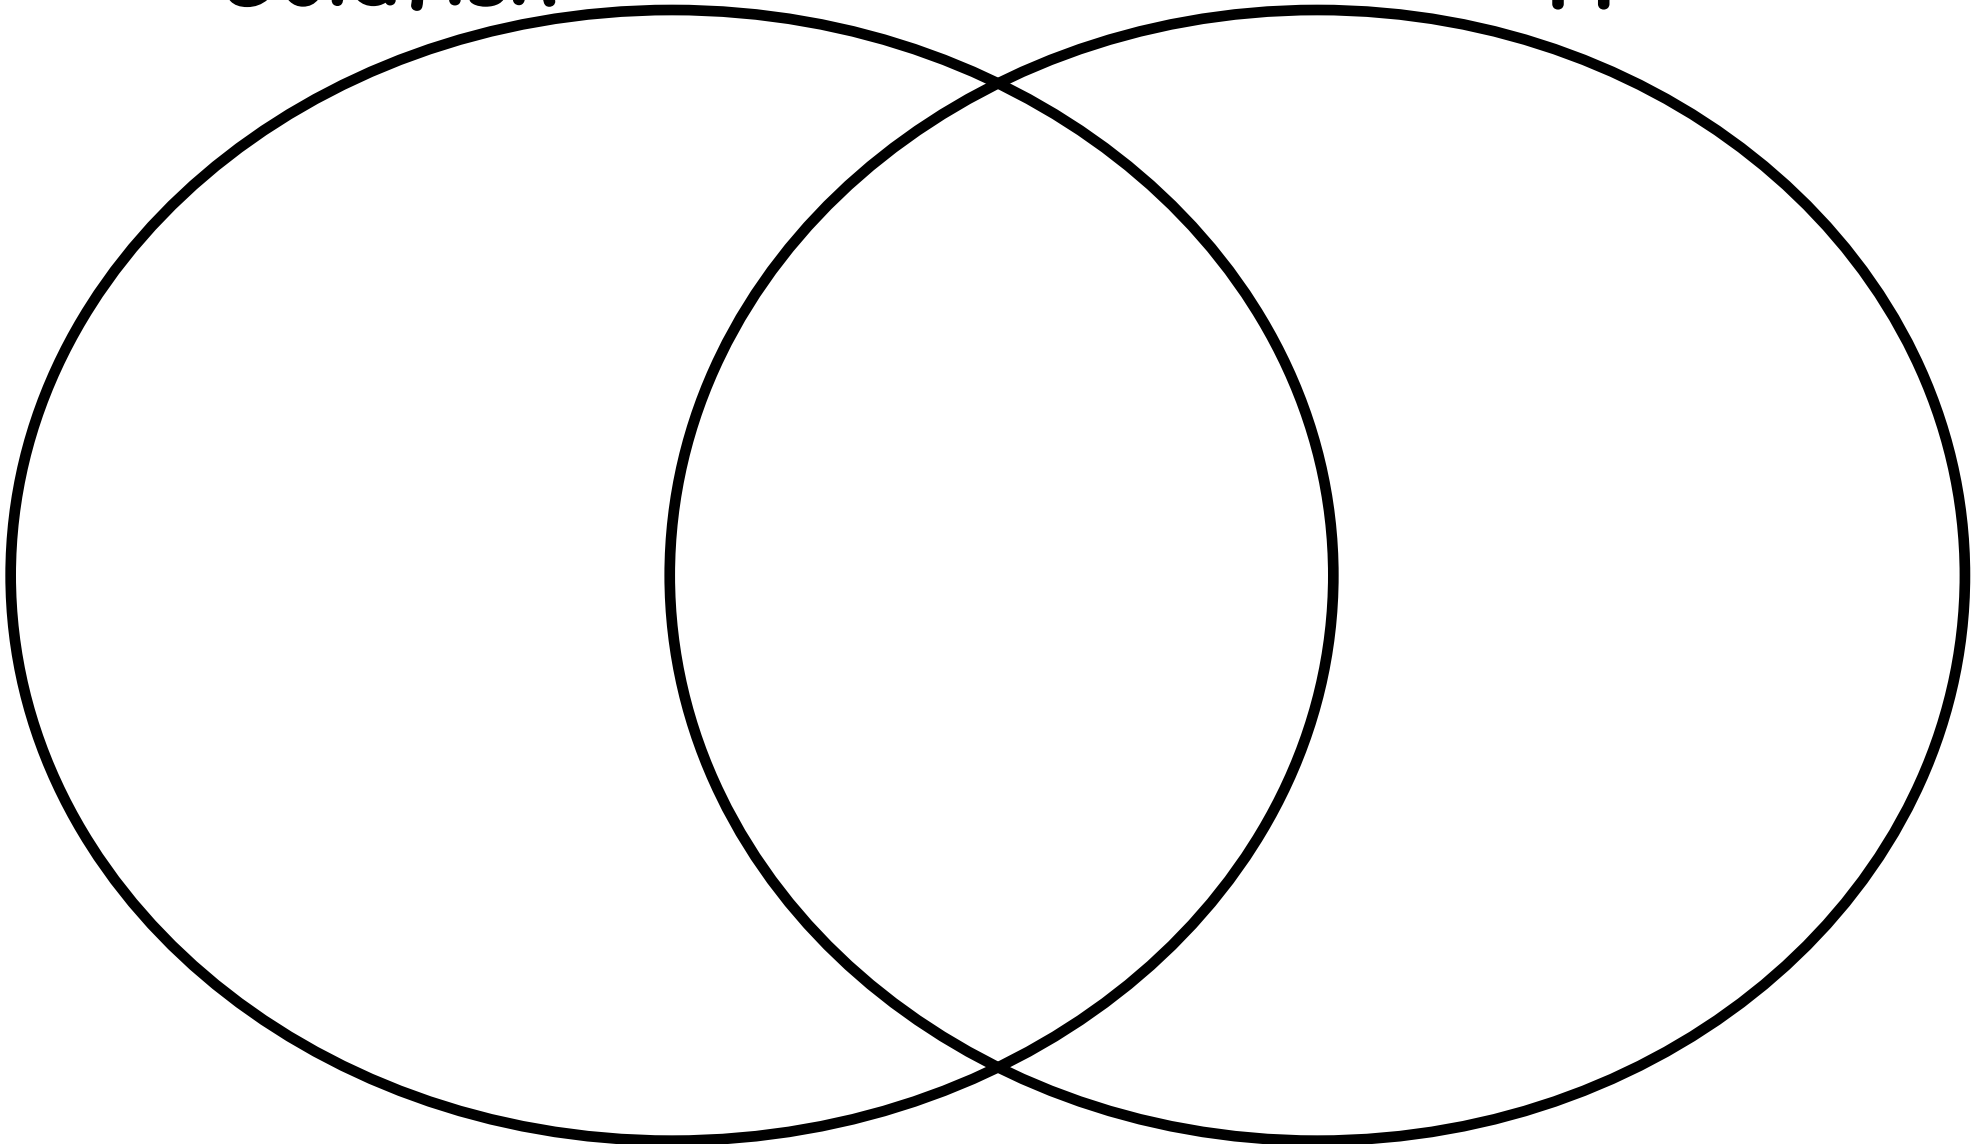

**When you look at us there's a lot to compare.  
Just list your ideas so we can share.**

**Leah McElroy**

How are they alike? How are they different?

Goldfish

Guppies

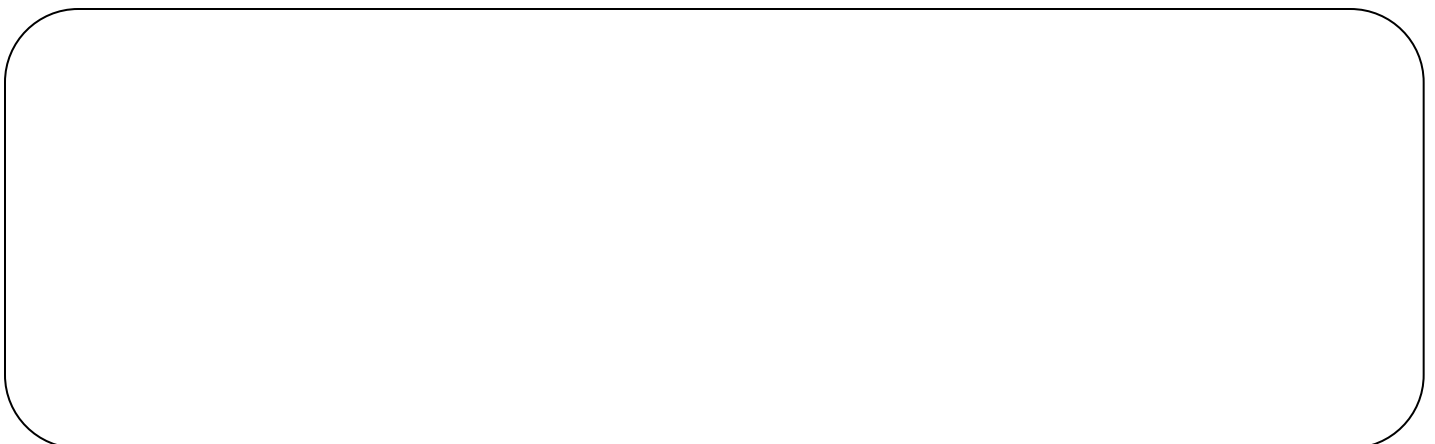

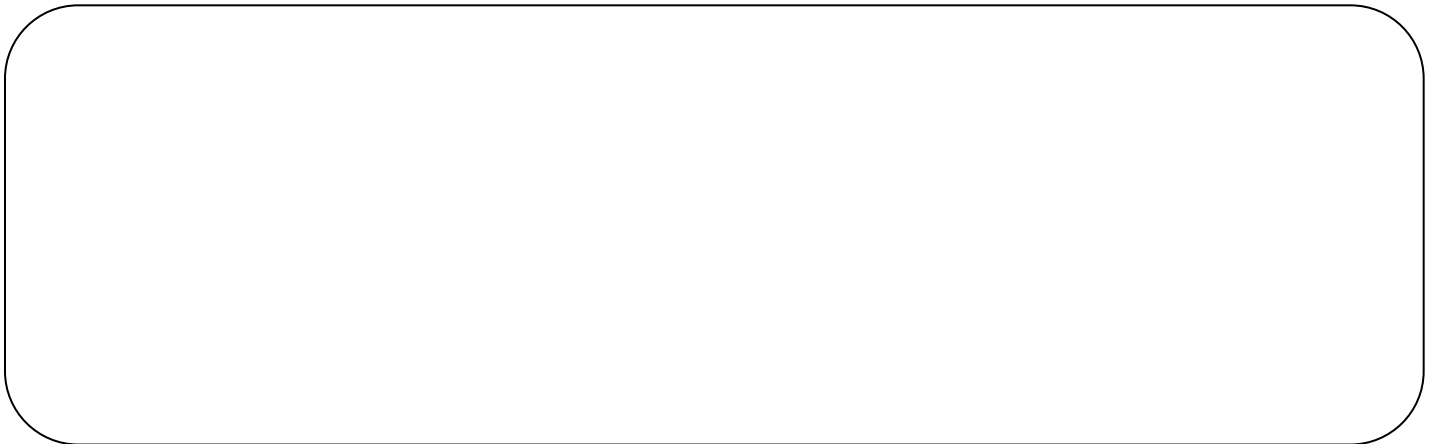

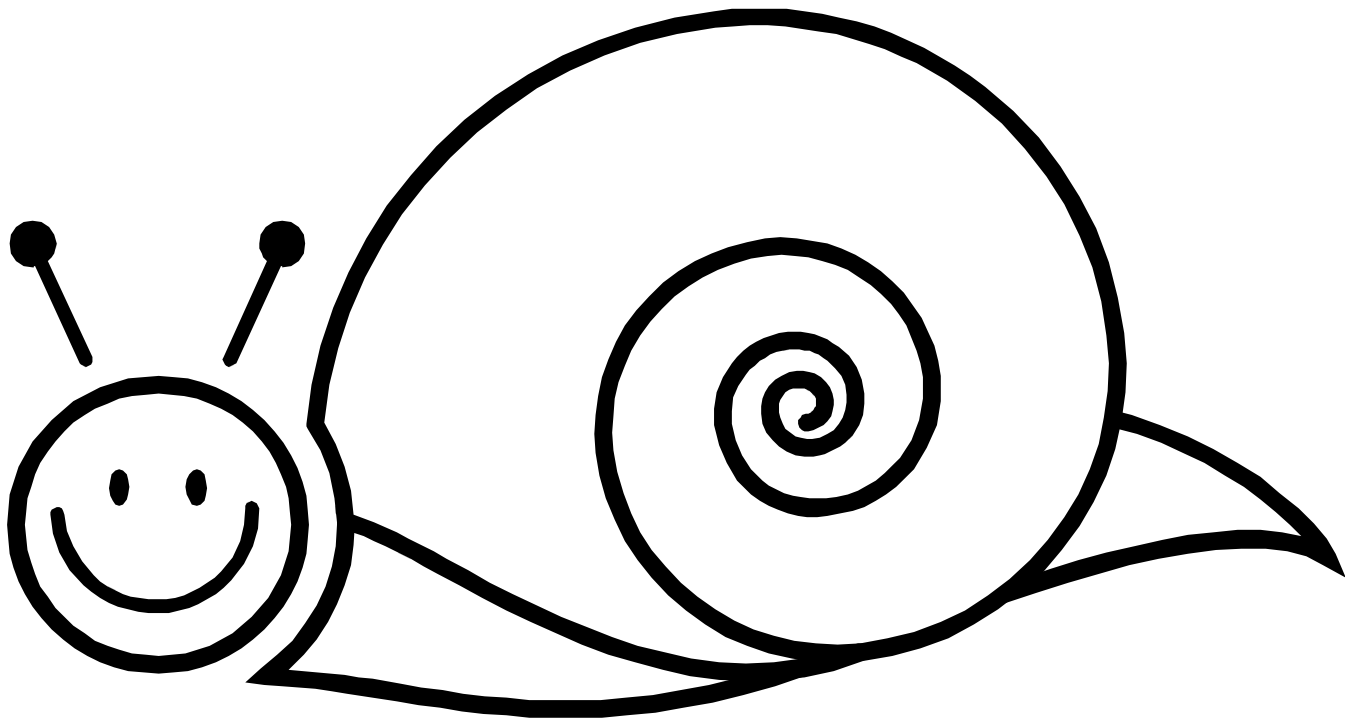

# Investigation 1

## Conclusion

**What did you learn about goldfish and guppies? Draw or write three things you learned.**

# Snails

## **Investigation 2**

# **Snails**

## **Question 1**

**Draw and label the parts of a snail.**

## **Investigation 2**

# **Snails**

## **Question 2**

**How many tentacles does a land snail  
have?**

**What kind of shell does a land snail  
have?**

**Investigation 2**

**Snail Races**

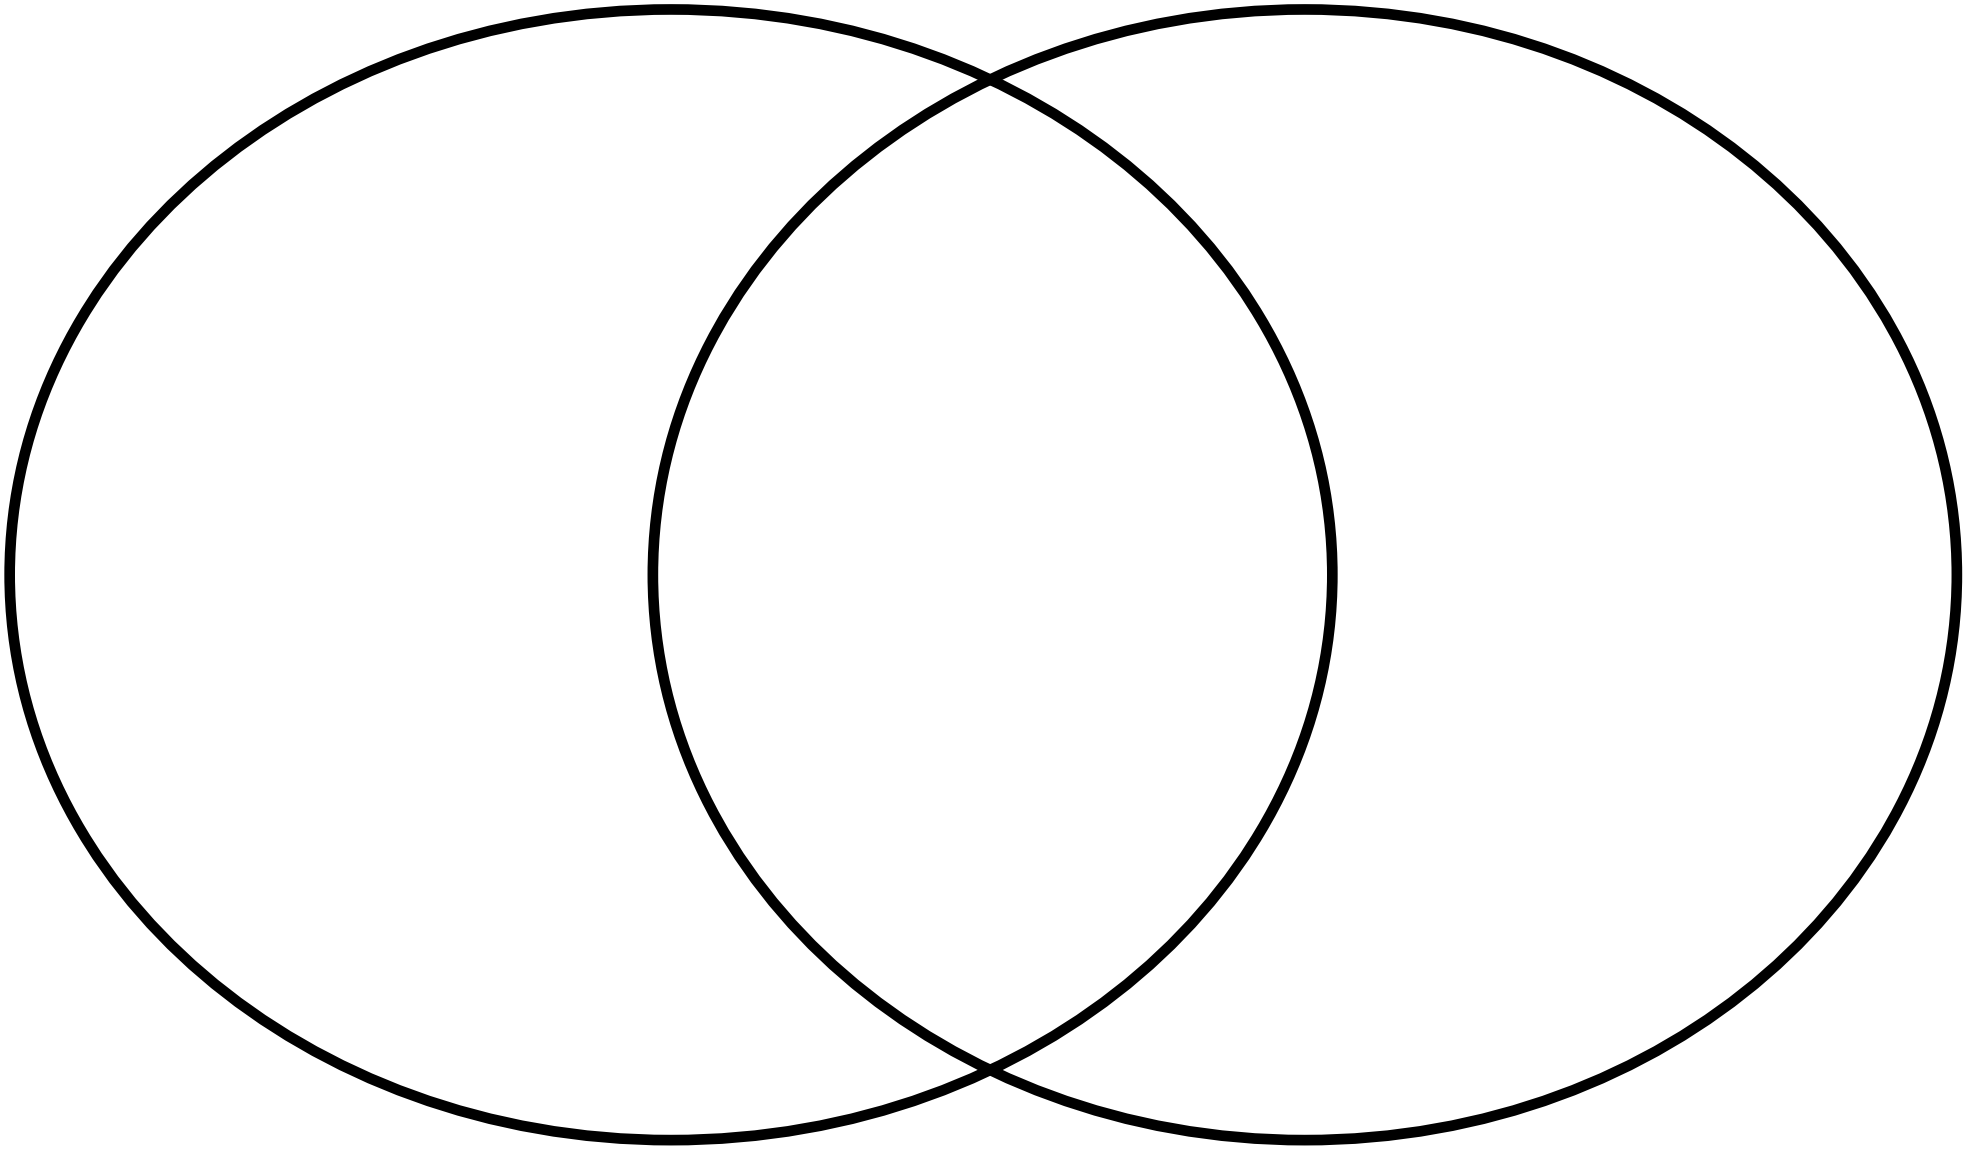

**Question 3**

**What can you do to get a snail to move?**

**How are they alike? How are they different?**

**land snails**

**water snails**

# Snails

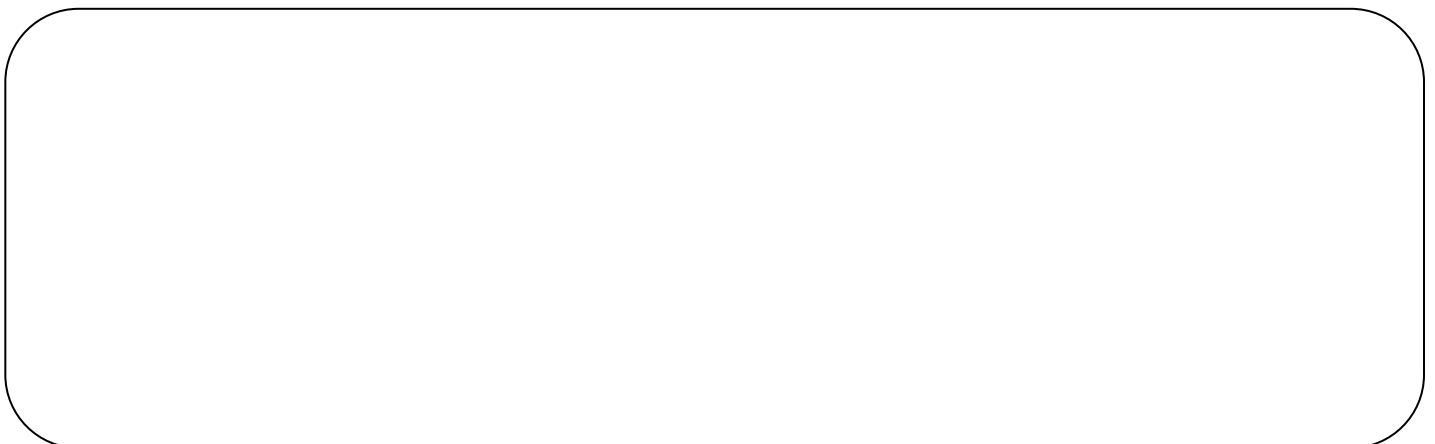

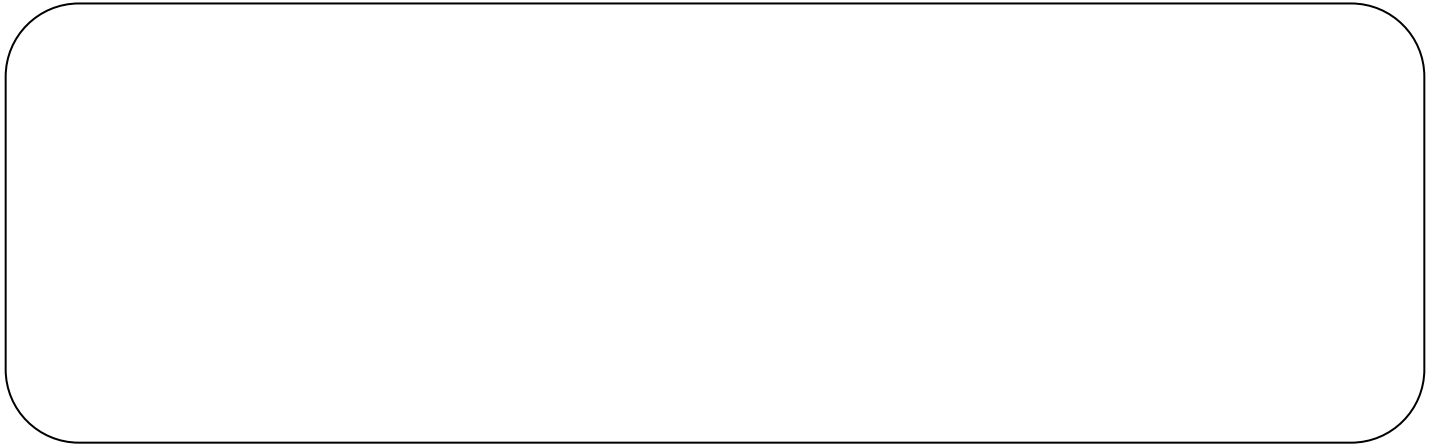

Clinging to our stucco wall,  
Holding tight they never fall  
Resting on a zinnia stem,  
They nibble leaves.  
I look at them,  
Tracing their path of sticky slime,  
Wondering where I would climb  
If I could ooze a shining trail,  
If I could travel like a snail.

Myra Cohn Livingston

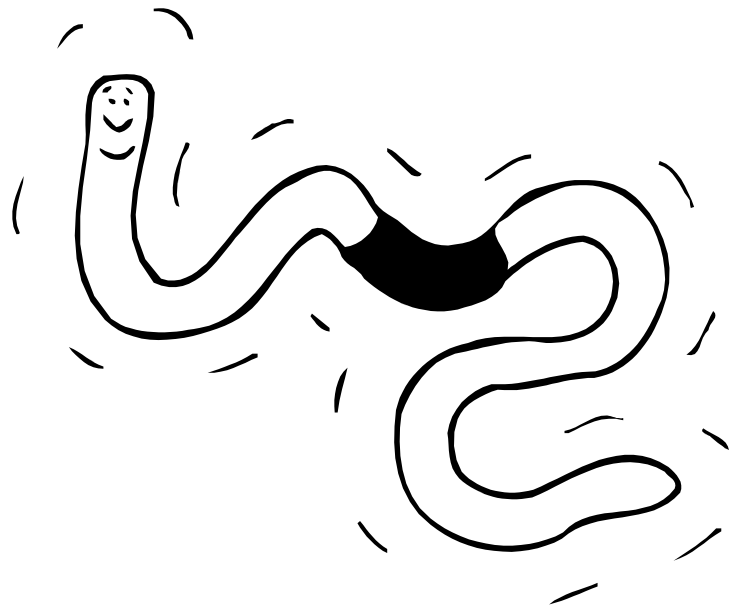

## Investigation 2

# Conclusion

**What did you learn about land snails and water snails? Draw or write three things you learned.**

# Worms

## **Investigation 3**

# **Worms**

## **Question 1**

**Draw and label the parts of a worm.**

## Investigation 3

# Caring for Worms

## Question 2

What do worms need to live? Write and draw three different things.

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

## **Investigation 3**

# **Worm Behavior**

## **Question 3**

**What do you think the worms will do when some cubes are placed in front of them?**

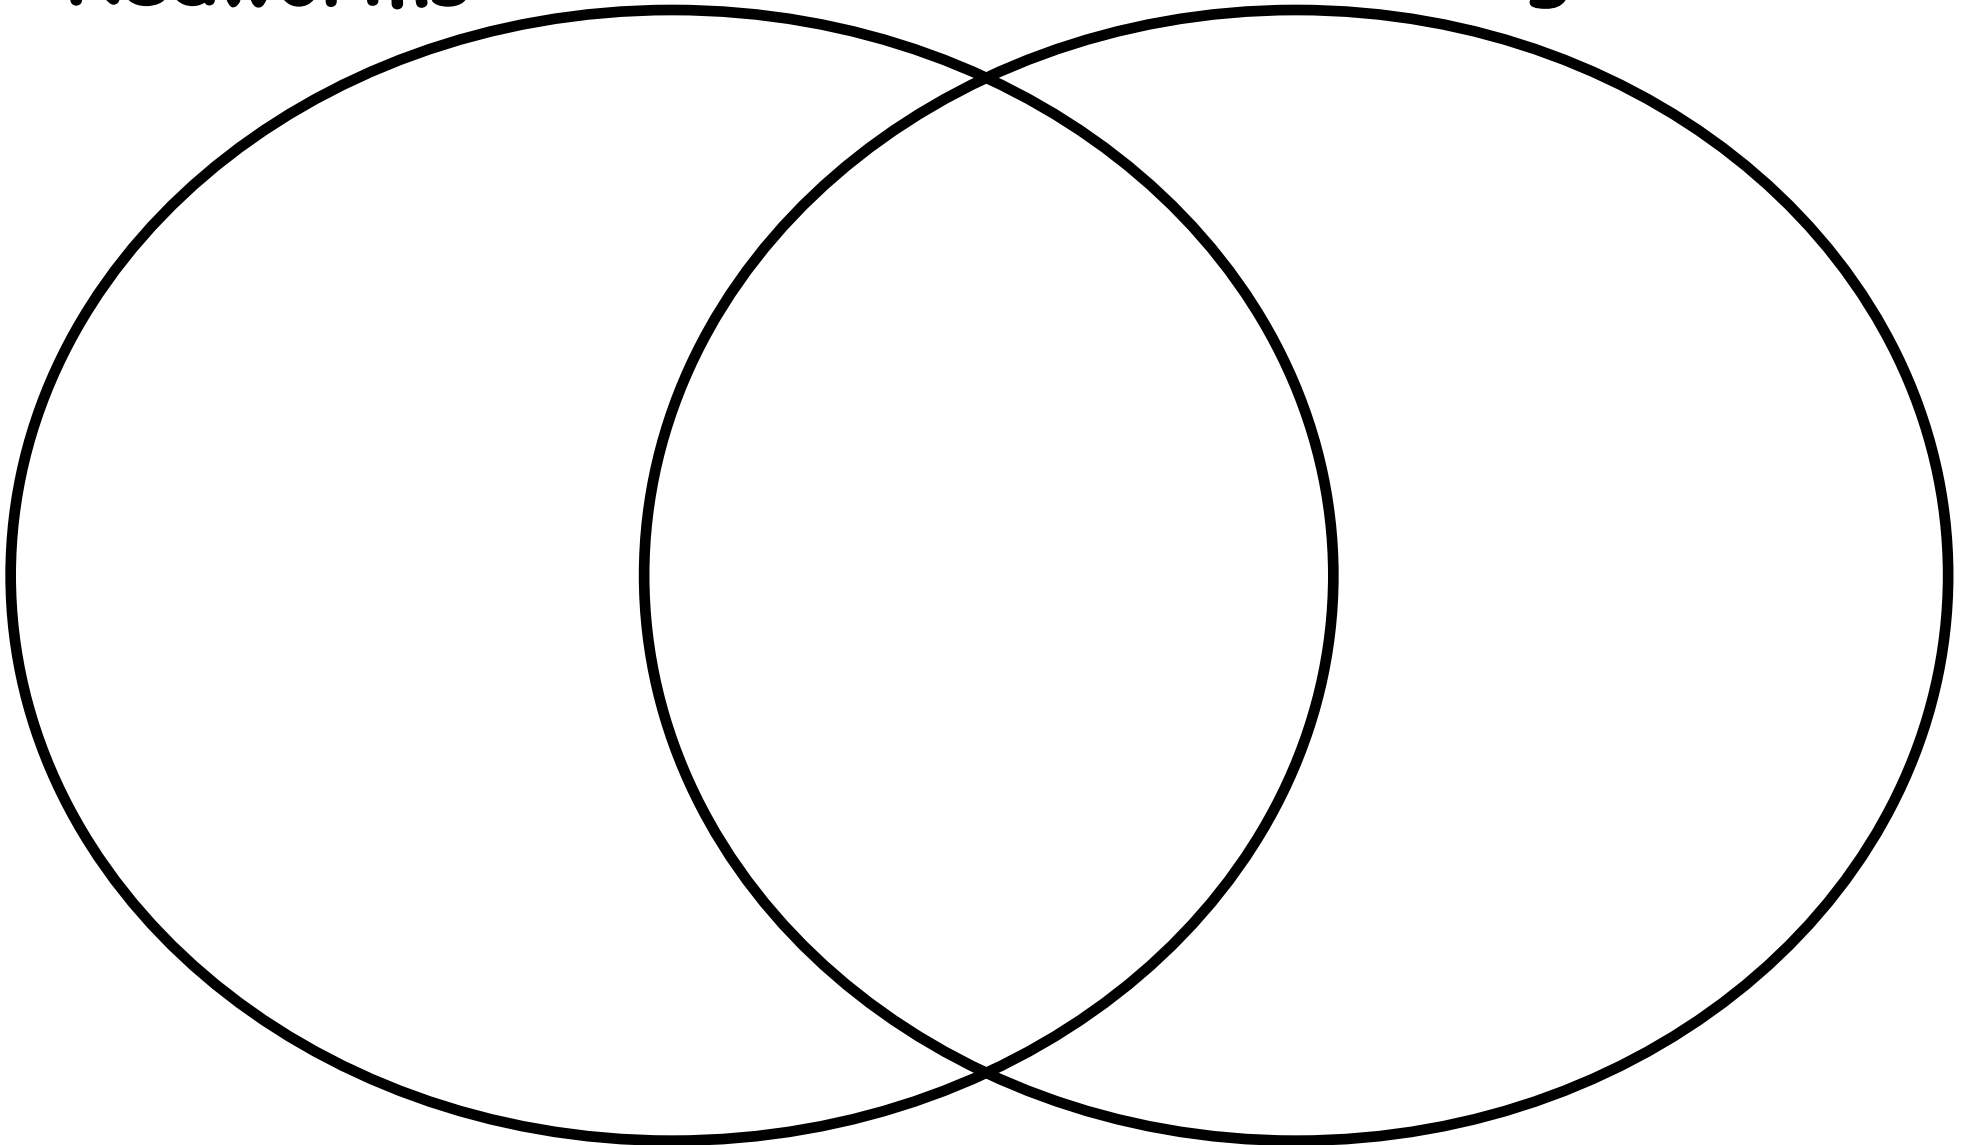

**Draw and write what happened.**

How are they alike? How are they different?

Redworms

Nightcrawlers

# **Worms**

**I'm a little redworm, small and red.  
You can't tell my tail from my head.**

**When it's light I find the dark.  
You can find me anywhere, even in a park.**

**My buddy the nightcrawler is bigger and flat.  
Compared to me, he is fat.**

**We like the dark and even the wet.  
These are things that have to be met.**

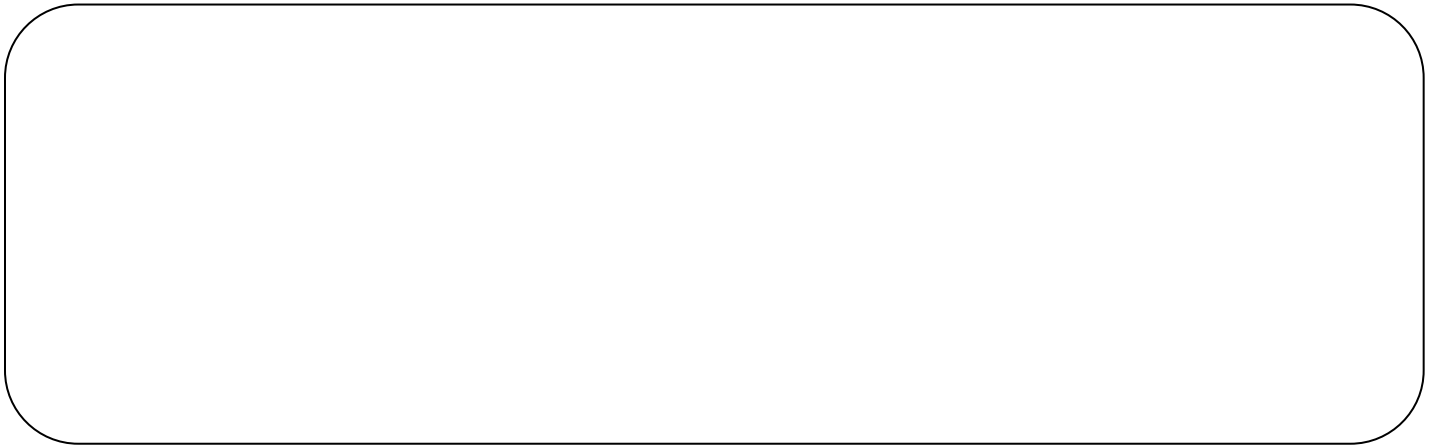

**We have to have these in order to survive.  
Without them we wouldn't be alive.**

**Leah McElroy**

# Investigation 3

## Conclusion

**What did you learn about redworms and nightcrawlers? Draw or write three things you learned.**

# Isopods

## Question 1

**What are isopods?**

**What do you think our isopods will need to live?**

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

## **Investigation 4**

# **Isopods**

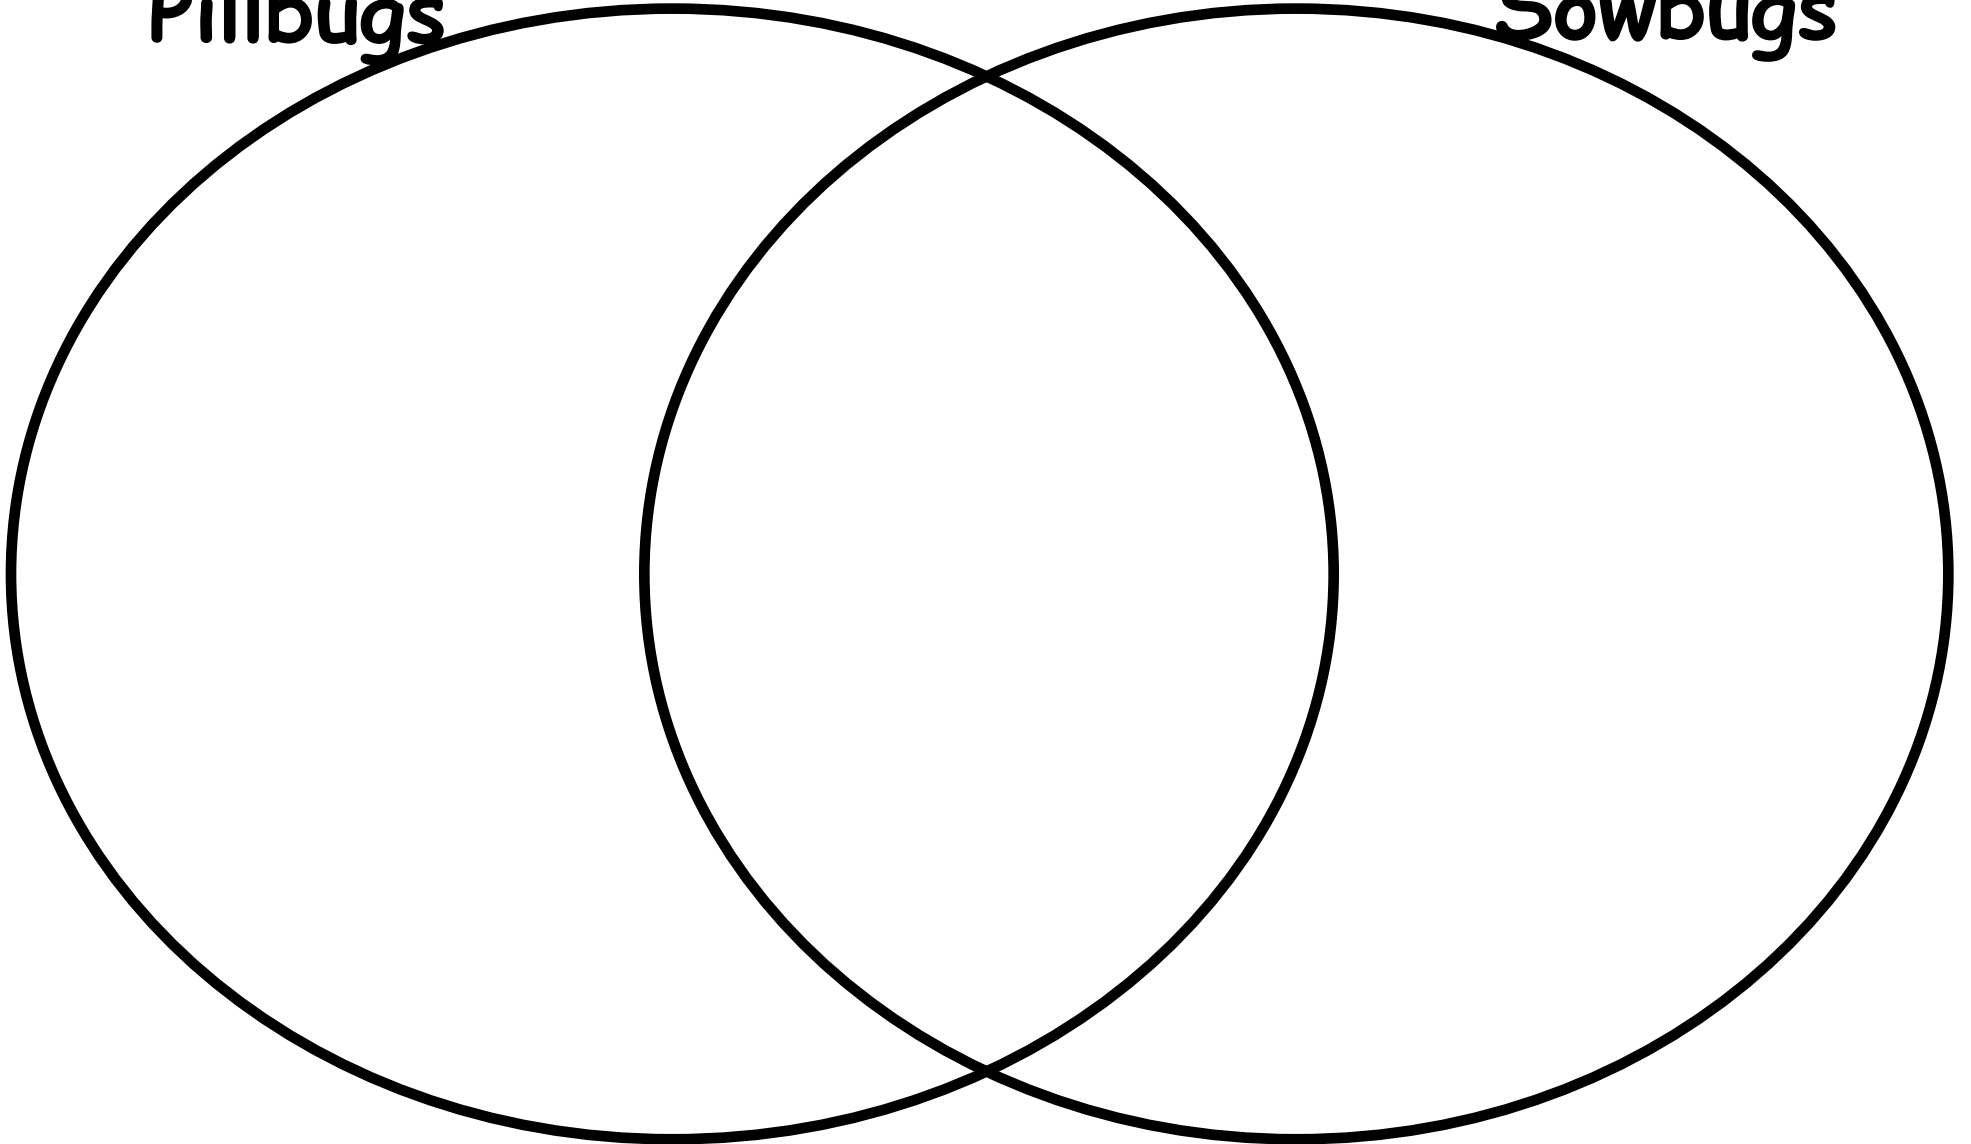

## **Question 2**

**How did you help your isopod move? Draw or write your answer.**

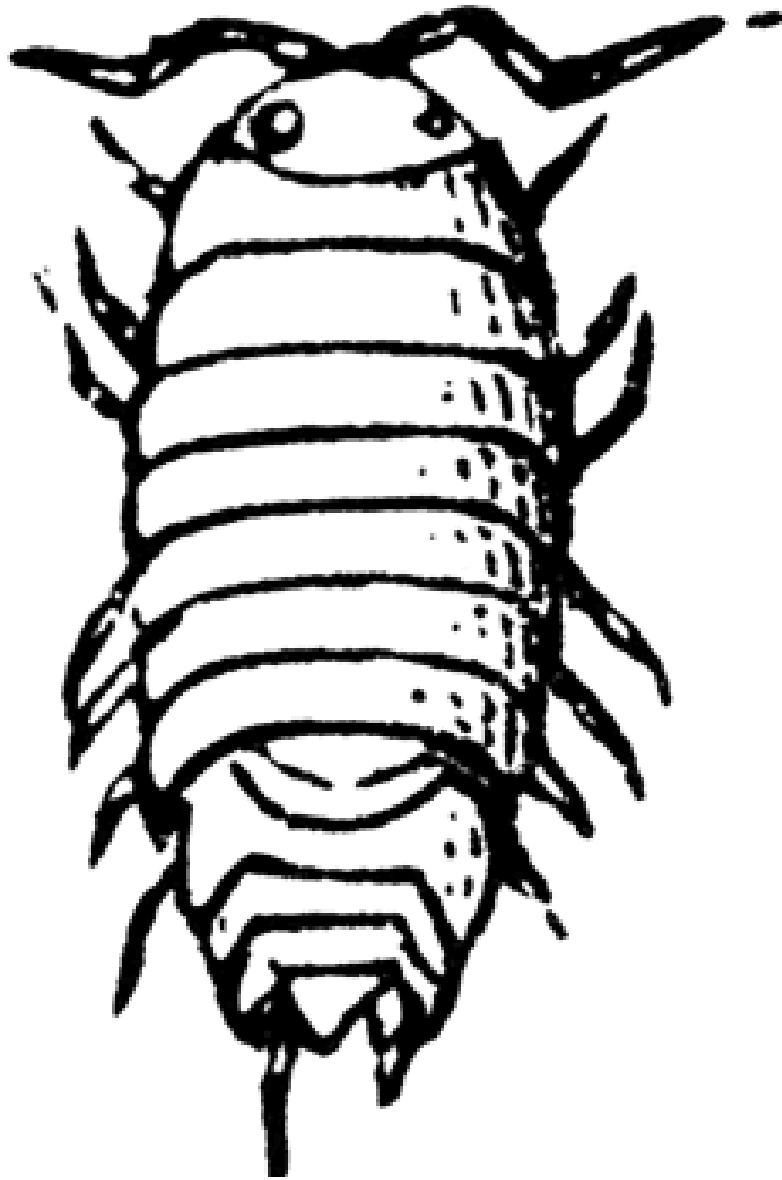

How are they alike? How are they different?

Pillbugs

Sowbugs

# Isopods

# **Isopods**

**There are some bugs called Isopods,**

**That are really kind of odd.**

**They breathe through gills and live on land,**

**They like to crawl and tickle your hand.**

**A pillbug rolls into a ball,**

**A sowbug has a really fast crawl.**

**One is slow, one is fast,**

**Can you tell which one just past?**

**By: Monique Belcher**

## Investigation 4

# Conclusion

**What did you learn about pillbugs and sowbugs? Draw or write three things you learned.**
